WDS DEMAND DRIVEN WASH DOWN WITH CAN WASH

Trash can washout is no longer a polluting problem. Simply place the inverted trash can on the cast iron grate, turn on the water and like a flash, the trash can is clean.

The wash area is also clean because the pit-mounted transfer valve automatically opens with water use, transferring contaminated wash water to the sewer.

Stormwater goes to the storm drain when the transfer valve is closed.

Model WDS-WDTS4X4CW

Suitable for but not limited to the following uses:

Airport Wash Sites, Container Wash Bays, Dog Kennels and Dog Parks, Emergency, Pool, Deck and Beach Showers, Fast Food, and all Trash Bin Locations, Fire Truck Wash Down, Trash Can Wash Down, Loading Docks, Marinas, Military Equipment Wash Pads, Rental Car Locations, Schools Food and Trash Bin Areas and other Unroofed Wash Pads.
